**FIRE  
CONTAINMENT  
CONCEPTS**

**PED FIRE-SAFE**

**Warning failure to follow the warnings could create a risk of serious injury.**

- **SEVERE BURNS OR DEATH** –Ensure the provided fire resistant gloves are correctly installed and any other optional personal safety equipment prior to deploying the P.E.D. FIRE-SAFE.

**NOTE:** Never attempt to pick up any item which is fully engulfed in flames. Extinguish all fires in accordance with your company's recommended procedures prior to inserting in the P.E.D. FIRE- SAFE.

- **SMOKE INHALATION** –Ensure the P.E.D. FIRE-SAFE upper flap is correctly closed and security straps installed and locked to contain the maximum amount of smoke from escaping the system.

## NOTICE

- **PROCEDURES-** Strictly adhere to your aircraft specific operating procedures for on-board fires.
- **PROJECTILE-** To reduce the possibility of the P.E.D. FIRE SAFE becoming a projectile, the system must be secured during taxi, takeoff, turbulence and landings.
- **SKIN IRRITANT-** The P.E.D. FIRE-SAFE utilizes multiple layers of high temperature synthetic materials and may be irritating to the skin with excessive exposure.
